# Introduction

*We are thankful to you for showing your interest in starting an institute in your city.*

*To assist you in the right direction we have collected all relevant information, to make it easy for you to choose right thing.*

*Being successful in an education venture depends on multiple factors. We insist that you do your own workings based on current realities and knowledge of your territory.*

*You can seek our assistance wherever required and we can work together to create a mutually beneficial and highly successful Business Venture. We are sure that this business will provide you with great income and experience.*

# About Us

*Expert offering new age career oriented courses targeted at component repairing segment.*

*The EXPERT has crossed many a milestone in its journey of technical education has been established since 2008 in Delhi. And has created his owned ranking in Asian's region. EXPERT has guided great strides in the field of technical education and provided employment & self-employment opportunities to more than 1000 Student's Expert's Instructors and consultants are best in their class having achieved several years of experience in the areas of Repairing network.*

*The technically oriented programs/courses offered by EXPERT are designed to train the student to become well versed & accelerate in their respective fields & to meet the growing industry demand. Expert plans to expand its chain of learning centers to offers quality education to students in India.*

# *Trained Manpower*

*The **Expert** has been witnessing phenomenal growth over the last few years. The boom in this sector has opened the doors to many opportunities. Today India's technical Repairing network is the 2nd largest in the world with the potential to reach 80 Crores subscribers by 2020.*

*It is our estimate that more than 10 lakhs trained professional are required to fulfill the direct and indirect employment and self-employment opportunities created by and within this industry. While the demand is high the supply is low due to lack of good training infrastructure and practices.*

*In India, crores of students pass out only small percentage of this are destined to find seats in colleges and continue education. In addition there are crores of students who drop out of school after 8th grade.*

*Today EXPERT Franchisees are in the best position to take advantage of this huge opportunity. EXPERT students are successfully self employed and are working like Nokia, Samsung, Sony, Hcl, Dell, IBM, Motorola etc.*

# *Training*

*Laptop Training*

*Mobile Repairing*

*CCTV Repairing*

*Data Recovery*

*Projector Repairing*

*Printer Repairing*

*LED/LCD SMART TV Repairing*
